003 – MOONCRATER TABLE LAMP - design Renaud Noret - 2017

SPECIFICATION SHEET

The light was born in violence and chaos and comes at night as a serene beauty. Mooncrater is inspired by the meteor impacts on the lunar ground. Concave marble blocks are used as natural light reflectors. With its unique marble pattern, each lamp offers different vibrations.

The Mooncrater table lamp has a revolving double side glass box that can be placed in a 360° free position. It allows to illuminate the marble base for a soft ambient light, or to point a wall or a seat for a reading usage.

MOUNTING	Table top
LIGHT BULB	E14 LED 3W (included)
ENVIRONMENT	Indoor - Dry location
VOLTAGE	220V-240V
SWITCH	Cord Dimmer Switch
MATERIALS	White marble - brushed brass - frosted glass
DIMENSIONS	400 x 332 x 220mm
WEIGHT	9.5kg
